

INTERNATIONAL ARCHITECTURAL COMPETITION

WISWAKHARMAN EXPO 2022

"IF ARCHITECTURE IS THE NATURE"

Coexistence is the best word to describe the relationship between humans, floras, and faunas. However, endangerment also can describe the condition of 147 mammal species, 144 bird species, 28 reptile species, 29 fish species, and 28 invertebrate species in Indonesia according to the IUCN Red List 2021. The intellectual creatures, humans, can cultivate and occupy the earth as they wish. However, human intelligence can also damage the balance between humans, floras, faunas, and the environment in the future negatively.

This architectural competition was held as a manifestation of the theme "If Architecture is The Nature" which brought various creativity and ideas of the participants, where participants are invited to create works as a solution to protect wildlife.
